SUBJECT INDEX

Abuse
  and group psychotherapy for women, 3
  prevalence in adolescents at runaway shelter, 187
  screening for child abuse, 191
Administrative work by nurses in Brazil, 156
Administrators, views on research findings, 44
Adolescents in runaway shelters, health concerns for, 187
Aging, and behavioral therapy for disruptive persons
  compared with pharmacotherapy, 174
  in nursing homes, 118
Analgesia, patient-controlled and intramuscular, patterns of, 67
Anxiety reduction for families
  with intraoperative progress reports, 169
  with telephone interventions, 42
Arthritis, self-care program in, 106

Back rubs, responses to, 39
Behavioral interventions for disruptive patients
  compared with pharmacotherapy, 174
  in nursing homes, 118
Body image in pregnancy, 81

Cardiac arrest, sudden, during hospitalization, 160
Cardiovascular disease
  and health education in primary care, 114
  and sexual functioning, 143
Children
  abuse of, screening for, 191
  missed opportunities to immunize preschoolers, 56
Clinical trials, barriers to participation in, 8
Competence of nursing home residents, staff evaluation of, 18
Compliance in clinical trials, barriers to, 8

Dementia, and disruptive behavior in nursing homes, 118
Drug administration
  compared with behavioral therapy for disruptive elderly patients, 174
  in postoperative pain control, 67
  procedure for intramuscular injections, 23
Drying techniques after skin cleansing, 15

Editorials, 1, 55, 105, 155

Falls in hospitals, predictive model for, 129
Families
  anxiety reduction in
    with intraoperative progress reports, 169
    with telephone interventions, 42
  dyadic interviews for research in, 96
  maternal responses in. *See* Postpartum period
Fatigue
  patterns in pregnancy, 140
  postpartum, self-care guide for, 92

Gender stereotyping during health interviews, 182
Group psychotherapy for abused women, 3

Health care
  for adolescents at runaway shelters, 187
  cardiovascular health education in, 114
  and gender stereotyping during interviews, 182
  quality and caring in, 155
  and retention of nurses in rural settings, 73
  value of primary care in, 55
Heat loss in neonates during tub baths, 123
HIV infection
  barriers to clinical trials in, 8
  tumor necrosis factor-α affecting neuropsychological function in, 88
Hospitalization
  falls in, predictive model for, 129
  sudden cardiac arrest in, 160

Immunization of preschoolers, missed opportunities in, 56
Infants
  axillary temperatures in neonates before and after tub baths, 123
  maternal responsiveness to, 34
Intensive care units, and anxiety reduction in families after telephone interventions, 42
Interviewing
  dyadic, as research tool, 96
  gender stereotyping in, 182
Intramuscular injections
  for analgesia, patterns in, 67
  procedure for, 23
Intraoperative progress reports for families, benefits of, 169

Job satisfaction of nurses in rural settings, 73

Management in nursing, participative, 156
Mental status
  in HIV infection, tumor necrosis factor-α affecting, 88
  of nursing home residents, staff evaluation of, 18
Motherhood. *See* Postpartum period

Neuropsychological function in HIV infection, tumor necrosis factor-α affecting, 88
Nursing homes
  behavioral interventions for disruptive patients in, 118
    compared with pharmacotherapy, 174
  staff evaluation of residents' competence in, 18
Nursing practice
  behavioral interventions for disruptive patients
    compared with pharmacotherapy, 174
    in nursing homes, 118
  integration with research, 105
    administrators affecting, 44
    in dissemination of interventions, 106
  job satisfaction in rural settings, 73
  pain management protocols, 67
  participative management in, 156
  patient responses to back rubs, 39
  procedure for intramuscular injections, 23

Obesity, postpartum, 81

Pain management, analgesia administration methods in, 67
Patient-controlled analgesia, patterns in, 67
Postpartum period
  adaptation in primiparas older than 35 years, 61
  body image in obese and nonobese women, 81
  factors affecting maternal responsiveness to infants, 34
  self-care guide for fatigue in, 92
Povidone-iodine-cleansed skin, drying techniques for, 15
Pregnancy
  body image in, 81
  fatigue patterns in, 140
Primary care
  cardiovascular health education in, 114
  value of, 55
Progress reports for families
  intraoperative, benefits of, 169
  with telephone interventions by ICU nurses, 42
Psychological responses
  to back rubs, 39
  in HIV infection, tumor necrosis factor-α affecting, 88
  to sudden cardiac arrest during hospitalization, 160
Psychotherapy in groups for abused women, 3

Recruitment
  of nurses, and retainment incentives in rural practice, 73
  of subjects for clinical trials, barriers to, 8
  of subjects for research, 50
    and myth of "captive subjects," 147
Replication studies, value of, 102
Research
  barriers to utilization of, 44
  compared with organization improvement process, 199
  dyadic interviews in, 96
  finding time for, 151
  integration with practice, 105
    administrators affecting, 44
    in dissemination of interventions, 106
  myth of "captive subjects" in, 147
  recruitment of subjects for, 50
  replication studies in, 102
Retention of participants in clinical trials, barriers to, 8
Risk factors for hospital falls, 129
Runaway shelters for adolescents, health concerns in, 187
Rural practice, retention of staff nurses in, 73

Screening for child abuse, 191
Self-care
  guide for postpartum fatigue, 92
  program for arthritis management, 106
Sexual activity
  in adolescents at runaway shelter, 187
  in cardiovascular disease, 143
Skin cleansing, drying techniques after, 15
Stress in primiparas older than 35 years, 61

Telephone interventions, and anxiety reduction in families, 42
Temperature, axillary, in neonates before and after tub baths, 123
Tuition reimbursement, and job satisfaction of nurses in rural settings, 73
Tumor necrosis factor-α, and neuropsychological function in HIV infection, 88

Vaccination of preschoolers, missed opportunities for, 56
